HPC Advisory Council Announces 5th Annual China High-Performance Computing Workshop Program

Speaker and sponsorship opportunities are available

Sunnyvale, Calif. – Aug. 27, 2013 – The HPC Advisory Council, a leading organization for high-performance computing research, outreach and education, today announced its 5th Annual China High-Performance Computing Workshop on October 28th, 2013 at the Sangria Hotel, Guilin, Guangxi, P. R. China in conjunction with the HPC China 2013 Conference. The workshop will focus on HPC productivity, and advanced HPC topics and futures, and will bring together system managers, researchers, developers, computational scientists and industry affiliates to discuss recent developments and future advancements in High-Performance Computing. Speaker and sponsorship opportunities are available.

"We are pleased to collaborate again with HPC China and to have our fifth high-performance computing education and outreach workshop in China as part of HPC China's overall conference program," said Gilad Shainer, chairman of the HPC Advisory Council. "The HPC Advisory Council's worldwide workshops have become world renowned as an excellent educational opportunity for HPC and data center IT professionals who are looking to deploy or provide additional enhancements and functionality to their advanced high-performance solutions."

For the agenda and schedule, please refer to the workshop website. The workshop is free to HPC China attendees and to the HPC Advisory Council members. Registration is required and can be made at the HPC China Conference website.

The HPC Advisory Council 5th Annual China Workshop is sponsored by the following companies: AMD, DataDirect Networks, Inspur, Mellanox Technologies, and Sugon. Media sponsorship and coverage is being provided by China Computerworld, China Network World, China Information World, HPCwire, Intersect360, IT168 and ZDNet China.
