HPC Advisory Council Announces Fall 2011 University Award Program

Awarded in November at SC'11, Winners will Benefit from a Range of Council Resources and Events

Sunnyvale, Calif. – Sept. 19, 2011 – The HPC Advisory Council, a leading organization for high-performance computing research, outreach and education, today announced the [Fall 2011 University Award Program](#), and is currently accepting research proposals from university undergraduate and graduate students that focus on advanced research in the subject area of high-performance computing. Twice a year, the HPC Advisory Council selects worthy proposals allowing winners to benefit from a range of the council's resources and events, including the opportunity to present their final research results to a wider audience. One of the HPC Advisory Council's main activities is community and educational outreach and support. The University Award program is an outgrowth of this, and is intended to enhance research in the area of High-Performance Computing.

“HPC is critically important to our economy and future, and its role is growing both in research and industry,” said Gilad Shainer, chairman of the HPC Advisory Council. “The University Award program is part of our ongoing effort to encourage and provide incentives for HPC education and advancement. This is an excellent opportunity for students around the world to bring their research to life and highlight the end results to the HPC community.”

Proposals for the Fall 2011 HPC Advisory Council University Award Program can be [submitted today](#) through Nov. 1, 2011. The selected proposal(s) will be determined by Nov. 14th and the winner(s) will be notified.

The HPC Advisory Council University Award winners are provided with the following benefits:

- Exclusive computation time on the HPC Advisory Council's Compute Center
- Invitation to present the research results at one of the HPC Advisory Council's worldwide workshops, including sponsorship of travel expenses (according to the Council Award Program rules)
- Publication of the research results on the HPC Advisory Council website and related publications
- Publication of the research results and a demonstration, if applicable, within the HPC Advisory Council world-wide technology demonstration activities

For more information and registration, please visit the HPC Advisory Council website <http://www.hpcadvisorycouncil.com/>.
